

Santander Securities LLC's Business Continuity Planning

Santander Securities LLC (SLLC) has developed a Business Continuity Plan on how we will respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions is unpredictable, we will have to be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our business continuity plan.

Contacting Us – If after a significant business disruption you cannot contact us as you usually do please follow the instructions below:

1. If your account is held by SLLC and you need to place a trade, please call our back-up voice mailbox at 866-736-6475. Leave your name and telephone number and a trader will call you back as soon as possible. Please do not leave trade instructions on this voicemail as we will not act on trade instructions left on voicemail. Alternatively you may view and execute trades via our website <https://santanderinvestments.netxinvestor.com>
2. Under certain circumstances, we will not have access to the above voice mailbox. On these occasions a message on 866-736-6475 will provide instructions for contacting us through alternate means including instructions on contacting our clearing firm directly.
3. If your accounts is held with a mutual fund or annuity company, please contact them directly for account inquires or trade executions.

Our Business Continuity Plan – We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our employees and property, making a financial and operational assessment, protecting the firm's books and records, and allowing our customers to transact business. In short, our business continuity plan is designed to permit our firm to resume operations as quickly as possible, given the scope and severity of the significant business disruption.

Our business continuity plan addresses: data backup and recovery; all mission critical systems; financial and operational assessments; alternative communications with customers, employees, and regulators; alternate physical location of employees; critical supplier, contractor, bank and counter-party impact; regulatory reporting; and assuring our customers prompt access to their funds and securities if we are unable to continue our business.

Our clearing firm, Pershing LLC, backs up our important records in a geographically separate area. While every emergency situation poses unique problems based on external factors, such as time of day and the severity of the disruption, we have been advised by our clearing firm that its objective is to restore its own operations and be able to complete existing transactions and accept new transactions and payments with minimal down time. Your orders and requests for funds and securities could be delayed during this period.

Varying Disruptions – Significant business disruptions can vary in their scope, such as only our firm, a single building housing our firm, the business district where our firm is located, the city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm or a building housing our firm, we will transfer our operations to an alternate site when needed and expect to recover and resume business with minimal down time. In a disruption affecting our business district, city, or region, we will transfer our operations to a site outside of the affected area, and recover and resume business with minimal down time. In either

situation, We plan to continue in business, transfer operations to our clearing firm if necessary, and notify you through our website Santandersecurities.com or our customer emergency number, 866-736-6475. If the significant business disruption is so severe that it prevents us from remaining in business, we will assure our customer's prompt access to their funds and securities.
